NEW YACHTS - SCANNER - Envy 1500

Condition: new

Year: 2026

Scanner Envy 1500 Outboard Luxurious, refined, and with a bold character — the new flagship from Scanner Marine sets a new benchmark in the Maxi-RIB world. Measuring 15.20 meters in length with a maximum beam of 4.40 meters, it is designed to meet the expectations of the most demanding owners. Available with engine configurations ranging from 1,200 to 2,400 horsepower, it can be enjoyed either as an elegant cruiser or transformed into a high-performance, adrenaline-charged Maxi-RIB. The redesigned deck layout, while staying true to the family feeling of the range, fully embraces the walk-around concept, offering two generously sized and highly functional side passages that lead to the expansive aft beach club. At the bow, the Envy 1500 takes a step up in class, offering interiors with dimensions and headroom typically reserved for large motor yachts — delivering a perfect balance of comfort, style, and performance.
